146

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and write about it. They are interested in the events that have shaped the world and the people who have lived in it. They are interested in the changes that have taken place over time and the reasons for these changes. They are interested in the lives of the people who have lived in the past and the things that they have done. They are interested in the culture of the past and the values that have shaped it. They are interested in the progress that has been made and the challenges that have been faced. They are interested in the future and the things that we can learn from the past.
